## MISSION STATEMENT

**Citizens for California Reform (CCR)** is a general purpose political action committee. As a non-partisan public interest advocacy organization, CCR is committed to advancing more limited and transparent government. With a streamlined government, CCR seeks to:

- establish high-quality, cost-efficient public services;
- increase personal responsibilities and civic involvement;
- protect individual liberties and freedom of speech; and
- decrease the tax burden on California residents and businesses.

By meeting these objectives, CCR ultimately hopes to return California to a responsive, citizen-informed and citizen-based government.

## HOW YOU CAN HELP

CCR has spent tens of thousands of dollars supporting candidates that share its common vision. We have also opposed candidates and ballot measures that have stood in the way of important reforms. Throughout the state, this non-partisan organization has helped elect strong leaders and steer the political debate.

CCR needs donations from Californians like you in order to continue its role in California politics. With your generous donation, CCR will be able to support future candidates and causes, recruit tomorrow's leaders, and educate Californians on the key issues of the day.

**Please make your generous contribution to:**
