Background

What elected offices have you held?

Please give a brief description of your background and why you believe you are the most qualified for the office you are seeking.

Policy issues

Briefly describe your top priorities and the policy areas that will be of most interest to you.

What is your position on state or local government budget spending limit?

Do you support a part-time citizen-based state legislature? Why or Why not?

What is your personal background in reforming governmental organizations?
What are your top 3 priorities for governmental reform for the office you are seeking?

What is your position on a split roll property tax in California?

Where do you stand on the current taxes paid by Californians and businesses?

What is your position on the current business climate in California?

California has been labeled as the most unfriendly business state in the nation due to over-regulation and excessive unfunded mandates. Describe how you would address these issues.

How should Congressional districts in California be drawn?

What is your view of the role of local, county and state government in California?

What is your view on term limits?

Briefly, feel free to elaborate on any issue not addressed in this endorsement questionnaire.
